Master in Industrial Design / Product Design (104/110)

courses

Industrial Design, History of industrial design and architecture, Principles and concepts of technical drawing, Materials for design, Instruments and methods to project, Theory and practice of the project, Theory of the color

thesis

“Contemporary artwork: how to make it?”

I analyzed the process with which a contemporary artwork is made. I investigated the process of creation of an artwork, starting from its idea to its realization. I researched the figures taking part in it, the materials used, the technologies, etc. I analysed some of the most important artworks such as the ones created by Damien Hirst, Jeff Koons, Maurizio Cattelan. For more information, my thesis can be viewed on the following website: www.mhdd.it

09/2002 - 07/2005
POLITECNICO DI MILANO, ITALY
Bachelor Degree in Industrial Design / Product Design (106/110)

courses

Industrial Design, History of contemporary art, Principles and concepts of the project, Instruments and methods to project, Theory and practice of the project, Thesis laboratory, Internship

thesis

“Feel the door”

Design of a door with a tactile surface made of memory foam material. I took care of the research, development and engineering of the entire project including the door opening system

09/1997 - 06/2002
LICEO SCIENTIFICO TECNOLOGICO “I.T.I.S. LEONARDO DA VINCI
CARATE BRIANZA (MB) - ITALY
Diploma di maturità scientifica (82/100)

WORK EXPERIENCES

03/2010 - Present
NABA - NUOVA ACCADEMIA DI BELLE ARTI, Milano, ITALY
University

I am a professor of Material Technology at the Design Faculty at NABA University. In my course I teach technical drawing and how to design and produce a foam model of a real object

01/2010 - Present
VISMARAVETRO S.r.l., Verano Brianza (MB), ITALY
Shower Factory

In my current role I take care of the R&D and engineering of showers. I am in charge of developing the assembling instructions, manuals, technical drawings and the technical documentation for all our shower collections

MARCO PIROVANO

09/2007 - 05/2009

**SIGLA S.n.c., Lissone (MB), ITALY
Design Study**

In the two years spent at Sigla I worked as product designer on technical drawings, 3d modeling, rendering and engineering of the products. I also worked as graphic designer developing products' presentations. In addition, I worked on logo design, identity, products' brochures (print and publishing) and web development

2003 - Present

**STUDIO DI PROGETTAZIONE STAMPI, Besana Brianza (MB), ITALY
Injection Molding Study**

I am currently working in the mould injection sector. This position gives me the possibility of gaining experience on plastic material. I worked on a great number of different injection mould projects. I developed 3D models for mould parts and I learnt how a plastic object is made

Present

FREELANCE GRAPHIC DESIGNER

In the past three years I have been working as a freelance graphic designer. Graphic design is my passion. Freelancing work gives me the opportunity to create different kind of works that involve all the areas of graphic design. I work on logos, prints, web development, identity, etc. Examples of my work can be seen on the following website: www.mhdd.it

others

Italian full driving licence

INTERESTS

graphic

I like graphic design and communication. As part of my development, I constantly keep myself updated on the latest trends

technology

Technology is another one of my passions. I am well-informed on smartphones, computers and their operating systems, TVs, etc

sports

I played basketball from the age of 9 until I was 22 years old. I was part of several teams (Masters Carate, Basket Arosio, Azzurra Albiate and Basket Nibionno) and took part to many tournaments and championships. Since 2006 I continuously practice fitness and train with weight. Through constant practice, I am gaining more competence and experience. I am very interested in learning about different training methods and healthy diets. I read books on these subjects and try to put their principles into practice both during training and in my everyday life. In my spare time I also like to watch sport (such as Football NFL, Basketball NBA) movies and TV Series
